# Michael Garron Hospital is the heart of the east.

At Michael Garron Hospital, we care for people during the most significant moments in their lives: from the birth of a child to the death of a loved one, and everything in between.

We serve 400,000 people in East Toronto and others who seek our skill and expertise. Importantly, we treat everyone who comes through our doors like a neighbour, just as we have for nearly 100 years. That's how we earned our place as Best Hospital in the Toronto Star Readers' Choice Awards 2024.

Your sponsorship of our Celebration of Food & Wine will support state-of-the-art technology, community-based programs and innovative research to advance patient care. Your generosity will also show your customers how much you care for your community.
